Github: https://github.com/Kirtianurag Mobile: +917007297976

Skills

- **Languages**: C, C++, JavaScript, Java, PHP
- **Frameworks**: HTML, CSS, Tailwind CSS, NodeJS, ReactJS
- **Tools/Platforms**: MySQL, MongoDB , Git, GitHub
- **Soft Skills**: Problem-Solving, Team Player, Adaptability

Projects

- **Railway Ticket Booking System** | GitHub Nov 2025
- Built a full-stack railway ticket booking system using ReactJS (frontend) and Node.js + Express (backend).
- Implemented a rule-based chatbot interface to help users search trains, check availability, view fares, and book tickets.
- Developed RESTful APIs for authentication, train search, booking, and history management..
- Integrated MongoDB for user and booking data storage.

- **Tech:** ReactJS, NodeJS, ExpressJS, MongoDB, REST API, JavaScript, JSON, JWT

- **Classic Snake Game** | GitHub Jun 2025
- Developed a classic Snake Game using Java Swing, featuring smooth UI rendering, real-time gameplay, and a responsive grid-based interface.
- Implemented snake movement and growth using a LinkedList, handling collisions, boundary checks, and dynamic speed increase as the score rises.
- Added gameplay enhancements including bonus food items, score and high-score tracking, pause/resume functionality, and a start/game-over screen for improved UX.
- Designed an efficient game loop using Swing Timers and event handling, ensuring consistent performance and fluid animations.
- **Tech:** Java, Swing, OOP

Summer Training (Lovely Professional University)

Fundamentals of Data Structures in JAVA | Link Jun 2025

- Gained hands-on experience with core data structures, including arrays, linked lists, stacks, queues, trees, graphs, and hash tables, while strengthening understanding of algorithmic complexity.
- Implemented each data structure through practical coding exercises in Java, focusing on efficient insertion, deletion, traversal, and searching operations.
- Built a functional mini-project that applied multiple data structures to solve a real-world problem, showcasing ability to design, optimize, and integrate algorithms into a complete system.

Certificates

- React by HackerRank Feb 2026
- Developer and Technology Job Simulation by Accenture Sept 2025
- Cloud Computing by NPTEL Apr 2025
- Introduction to Computers and Operating Systems and Security by Coursera Jan 2024

Achievements

- Completed the Google Cloud Arcade Program
- Solved 100+ question on Leetcode platform

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.94** *Since 2023*
- **Glorious Academy** Lanka, Varanasi
  Intermediate; **Percentage: 65** *Mar 2023*
- **ST. John's School** B.L.W, Varanasi
  Matriculation; **Percentage: 83.2** *Mar 2021*
